

Thread Mills

BME Inc is proud to announce... We are now producing Acme-style thread mills in-house! BME is committed to providing a quality cutting tool for use with BME Thread Milling (or otherwise) attachments on your cam machines.

Why Choose Our Thread Mills?

Superior Precision – Designed with our customers in mind, our thread mills provide a high level of accuracy.

Advanced Technology – We use only time-tested materials and coatings, and we stand behind our products.

Cost-Effective – Long-lasting tool life is crucial to any high-output manufacturing environment. Save money by buying quality tools to reduce downtime.

Customer Satisfaction - Our customers will see high-quality results, as well as an increase in productivity! BME is a trusted name in manufacturing high-precision tools that deliver superior performance. We are committed to innovation, quality, and customer satisfaction in every product we produce.
